GLOBALWARE SOLUTIONS
at a Glance

global possibilities – realized

GlobalWare Solutions (GWS) is a full service provider of global supply chain management solutions for companies looking to outsource all or some of the physical and digital components of their supply chain. From procurement, assembly and distribution of physical goods, to webstore development, digital ordering and delivery of software and licenses, GWS provides scaleable solutions that span the entire digital and physical supply chain. As a global enterprise with over 25 years of experience serving the Fortune 1000 community, our team of world class industry experts is strategically positioned to provide exceptional solutions and service in a variety of industries and economic markets. GlobalWare Solutions can help you meet business goals by giving you the power to manage and optimize your resources – customer needs are met, competitive differentiation is achieved and production and distribution are seamless and cost-effectively managed.

Supply Chain Services

GWS offers modular solutions that can be implemented independently to meet specific business needs or as a complete turnkey solution to address your entire supply chain. From assembly to distribution of finished goods; digital ordering and rights management; reverse logistics including product returns, to software and firmware reflash; GlobalWare offers a professional, seamless delivery that reduces inventory risk, maximizes cost efficiencies and accelerates your time to market.

Professional Services

Turn to GlobalWare Solutions for world class expertise and best practices to expedite your business objectives. Let our industry experts assess your current supply chain and recommend cost-effective solutions to help you manage and improve your business. Increase profitability, reduce inventory risk and improve resource allocation.

Information Management Tools

GlobalWare can provide a front end webstore for your online business; stock your product in our warehouse; fulfill and deliver the orders, process your returns and give you 24 x 7 visibility to it all. Utilizing our industry leading inventory visibility tool, GlobalView™, a window is literally open into the entire supply chain, from product entry into the warehouse until delivery into the customer's hands. With customized reporting and detailed search queries, the supply chain can be more effectively managed because you control the data you view. And because it's web-based, you can access the data from any computer, anywhere in the world, at any time.
